

Project developed with Java 21, Spring boot - React

#### About Users:

The users has different roles and depending on the role, the application will give you access to different components.

#### About the application:

The app has 2 complete CRUD. Has a CRUD about Stock of products and a CRUD about users.

#### About the backend:

The backend is with spring boot - spring security and jwt token with role system. The backend has an import.sql with all the data.

#### About the frontend:

Developed with Vite, React, Context and Provider, Routes, Bootstrap, react-bootstrap, custom css styles, Sweet alert 2.

#### About the database : MySql.

.....

Other pages without login:

without login, you haven't access to the list of users:

The screenshot shows a web application interface. At the top, there's a navigation bar with icons for React, MySQL, and other services, followed by links for Stock list, User system list, Images, Card places, and Videos. A prominent blue button on the left says "My Full stack app demo 2025!". On the right, there's a "Login" button. Below the navigation, a yellow banner displays the message "The users system list is empty!". Underneath, a placeholder text "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed imperdiet lacinia eleifend. In hac habitasse platea dictumst:" is visible. The footer contains social media links (Facebook, Twitter, Google, etc.) and a copyright notice: "© 2025 Copyright: <https://github.com/AxelCCp>".

Static images.

The screenshot shows a web application interface similar to the previous one, with a navigation bar at the top and a "Login" button on the right. The main content area displays a grid of nine static images. The images include a boat on a calm lake at sunset, a vibrant sunset over the ocean with a pier, a snow-covered mountain peak, a lake surrounded by snow-capped mountains, a close-up of a mountain range with a lake, a colorful sunset sky, and a landscape with a large rock formation and snow-capped peaks.

## Playing videos from the server and YouTube:

The image displays two screenshots of a web application interface, likely a full-stack application built with Vite + React, showing video playback capabilities.

**Top Screenshot:** This screenshot shows a local video player interface. At the top, there are icons for React, MySQL, Stock list, User system list, Images, Card places, and Videos. A "Login" button is also present. Below the header, a message reads "My Full stack app demo 2025!". The main content area is titled "Video stored in local or server Folder" and features a thumbnail of a video with a futuristic, colorful, glowing particle effect. A progress bar at the bottom indicates the video is at 0.00 / 0.16. The video player has standard controls (play/pause, volume, etc.) at the bottom right.

**Bottom Screenshot:** This screenshot shows a YouTube video player for the song "Within Temptation - Memories". The video thumbnail shows a woman in a white dress lying on a bed of leaves. The YouTube interface includes a navigation bar with other video thumbnails, a progress bar indicating the video is at 1:19 / 3:49, and standard YouTube controls like play/pause, volume, and a video progress bar.

## Create product with front validations:

The screenshot shows a web application interface for creating stock and products. At the top, there's a navigation bar with links like 'Stock list', 'Register stock', 'User system list', etc. A user profile 'Admin' is visible on the right. Below the navigation, a form is displayed with fields for 'sku', 'name', 'description', 'brand', 'price', 'units', and a date input 'dd/mm/aaaa'. A 'Create' button is at the bottom left. A modal dialog box is centered, featuring a red 'X' icon, the title 'Validation error', and the message 'You must complete all fields in the form.' A blue 'OK' button is at the bottom right of the modal.

create

The screenshot shows a 'Stock list' page with a table of products. A modal dialog box is centered, featuring a green checkmark icon, the title 'Product created', and the message 'The product was created successfully!'. A blue 'OK' button is at the bottom right of the modal. A cyan arrow points from the bottom left towards the modal. The table has columns for Id, Sku, Name, Description, Brand, Price, Units, Manufacture date, Update, and Delete. The last row of the table is highlighted in blue, corresponding to the cyan arrow.

## Managing the users of the system:

A screenshot of a web browser displaying a full-stack application. The title bar shows 'Vite + React'. The page URL is 'localhost:5173/user-system/list'. The top navigation bar includes links for 'Stock list', 'Register stock', 'User system list', 'Create user', 'Images', 'Card places', and 'Videos'. On the right, there's a user profile icon for 'Admin' with a skull and crossbones. A banner at the top says 'My Full stack app demo 2025!'. The main content area is titled 'System users list' and contains a table with 5 rows of user data. Each row includes columns for Id, Name, Lastname, Position, Area, Email, Roles, Update, and Delete. The table has a light blue header and white rows. Below the table is a text area with placeholder text 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed imperdiet lacinia eleifend. In hac habitasse platea dictumst:' followed by social media sharing icons. At the bottom, there's a footer section with company information, products, useful links, and contact details.

## Create user form:

The screenshot shows a web application interface for creating a new user. At the top, there is a navigation bar with icons for React, MySQL, and other system-related items. The main title is "User system form". Below the title, there are five input fields for "name", "lastname", "position", "area", and "email". A section titled "Select roles for de user system:" contains two radio buttons: "Admin role" and "User role", with "Admin role" selected. Below this, there is a group of three input fields: "Create a password", "Repeat password", and "confirm password". A blue "Create" button is located at the bottom left of this group. At the very bottom of the page, there is a footer with placeholder text "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed imperdiet lacinia eleifend. In hac habitasse platea dictumst:" and social media sharing icons for Facebook, Twitter, Google+, LinkedIn, and others.

## Backend validations:

The screenshot shows a user system form titled "User system form". The form includes fields for name, lastname, position, area, email, and roles. Validation errors are displayed below each field: "the field: name The name cannot be empty.", "the field: lastname The lastname cannot be empty.", "the field: position The position cannot be empty.", and "the field: area The area cannot be empty.". Below the fields, there is a section for selecting roles: "Admin role" and "User role".

name  
the field: name The name cannot be empty.

lastname  
the field: lastname The lastname cannot be empty.

position  
the field: position The position cannot be empty.

area

### User created with temporary password

The screenshot shows a web application interface. On the left, there is a sidebar with various icons for messaging, file management, and system settings. The main content area has a header bar with the title "Vite + React" and a URL "localhost:5173/user-system/list". Below the header is a navigation menu with links: "Stock list", "Register stock", "User system list", "Create user", "Images", "Card places", and "Videos". A dropdown menu for "Admin" is open. A cyan arrow points from the sidebar towards the "User system list" link in the navigation menu.

**System users list**

ID	Name	Lastname	Position	Area	Email	Roles	Update	Delete
1	Admin	consect	Master	Europe	vitae@finibus.com	1 admin	<button>Update</button>	<button>Delete</button>
2	Giru	adipiscing	Java developer	Latam	quis@ligula.com	1 admin 2 user	<button>Update</button>	<button>Delete</button>
3	Bils	sapien	Python developer	Asia	orci@neque.jp	2 user	<button>Update</button>	<button>Delete</button>
4	ZhenLong	Nullam	Database manager	Asia	non@ipsum.jp	2 user	<button>Update</button>	<button>Delete</button>
5	Boo	condimentum	Sales manager	USA	gravida@iacus.com	2 user	<button>Update</button>	<button>Delete</button>
6	post	post	post	post	post@post.com	2 user	<button>Update</button>	<button>Delete</button>

Below the table, there is a footer section with company information, products, useful links, and contact details. A copyright notice at the bottom states: "© 2025 Copyright: <https://github.com/AxelICCP>".

## Modal for user update:

The screenshot shows a modal window titled "Update user system". It contains input fields for "Name" (Admin), "Lastname" (consectetuer), "Position" (post), "Area" (post), and "Email" (post@post.com). Below these fields is a section titled "Select roles for de user system:" with two radio buttons: "Admin role" (selected) and "User role". At the bottom of the modal is a blue "Update" button.

## Backend validations:

The screenshot shows the same modal window as above, but now with validation errors displayed below the input fields. The "Lastname" field has an error message: "the field: lastname The size must be between 2 and 10 characters.". The "Area" field has an error message: "the field: area The size must be between 2 and 15 characters.". The "Email" field has an error message: "the field: email The entered value is not in email format.". The "Update" button at the bottom is still present.

## Updated

The screenshot shows a web application interface for managing users. At the top, there is a navigation bar with icons for React and MySQL, and links for Stock list, Register stock, User system list, Create user, Images, Card places, and Videos. A user profile icon labeled "Admin" is on the right. Below the navigation is a banner with the text "My Full stack app demo 2025!". The main content area is titled "System users list" and displays a table of user data:

ID	Name	Lastname	Position	Area	Email	Roles	Update	Delete
1	Admin	consect	Master	Europe	vitae@finibus.com	1 admin	<button>Update</button>	<button>Del</button>
2	Giru	adipiscing	Java developer	Latam	quis@ligula.com	1 admin 2 user	<button>Update</button>	<button>Del</button>
3	Bils	sapien	Python developer	Asia	orci@neque.jp	2 user	<button>Update</button>	<button>Del</button>
4	ZhenLong	Nullam	Database manager	Asia	non@ipsum.jp	2 user	<button>Update</button>	<button>Del</button>
5	Boo	condimentum	Sales manager	USA	gravida@lacus.com	2 user	<button>Update</button>	<button>Del</button>
6	post	updated	post	updated	updated@post.com	1 admin 2 user	<button>Update</button>	<button>Del</button>

A modal window is open in the center, displaying a green checkmark icon and the text "User system updated". Below it, a message says "The user system was updated successfully!" with an "OK" button.

At the bottom of the page, there is a footer section with links: COMPANY NAME, PRODUCTS, USEFUL LINKS, and CONTACT. The footer also includes a copyright notice: "© 2025 Copyright: <https://github.com/AxelCCp>".

This screenshot shows the same web application interface after a user update. The table data remains the same as in the previous screenshot. A red arrow points to the last row of the table, specifically to the "Name" column which contains the value "post".

The rest of the interface, including the navigation bar, banner, and footer, is identical to the first screenshot.

Delete:

The screenshot shows a web application interface for managing users. At the top, there's a navigation bar with icons for React and MySQL, and links for Stock list, Register stock, User system list, Create user, Images, Card places, and Videos. A user profile icon for 'Admin' is on the right. Below the navigation is a banner reading 'My Full stack app demo 2025!'. The main content area is titled 'System users list' and displays a table of users with columns: Id, Name, Lastname, Position, Area, Email, Roles, Update, and Delete. A modal dialog is centered over the table, featuring a large exclamation mark icon. The text inside the dialog reads: 'Are you sure you want to delete?' followed by a warning: 'Be careful, the user system will be deleted!'. At the bottom of the dialog are two buttons: 'Yes, delete!' in red and 'Cancel' in blue.

This screenshot shows the same web application after a user has been deleted. The user table now only lists six users. A modal dialog is centered, displaying a green checkmark icon. The text inside reads: 'User system deleted!' followed by 'The user system has been deleted successfully!'. At the bottom of the dialog is a single 'OK' button. The rest of the page remains identical to the first screenshot, including the navigation bar, banner, and footer.

## IT'S A DEMO ABOUT SETTINGS AND MANAGE YOUR ACCOUNT:

The screenshot shows a web application interface with a dark-themed header bar. The header includes a React logo, a MySQL logo, and several navigation links: Stock list, Register stock, User system list, Create user, Images, Card places, and Videos. On the right side of the header is a blue button labeled "Admin".

The main content area has a light background. On the left, there's a sidebar titled "Your account" featuring a rhinoceros icon. It lists four sections: Init, Personal information, Security, and General information, each with a small icon.

In the center, there's a large circular profile picture of a skull with purple bones. Below it, the text "Welcome Admin!" is displayed, followed by a subtext: "Manage your information, privacy and security to improve your experience."

On the right, there's a vertical sidebar with a "Manage your account" section, which includes "Something else", "Dark theme", "Help", and "Sign out".

At the bottom of the main content area, there are three cards: one with a red "天" character, another with a samurai illustration and a "Safety tips" button, and a third with a cartoon character and a "Your contact information" button.

The URL in the browser bar is "localhost:5173/account".

The screenshot shows a website footer with a light background. At the top, there's a message: "Only you can see your settings. We encourage you to also review your settings for Maps. Nulla bibendum at orci vel elementum. In lorem neque, rutrum ac nibh sed, venenatis dignissim metus. Vivamus velit nisi, tincidunt quis odio condimentum, vestibulum sodales diam. [Learn more](#)".

Below this, there's a section with the text: "Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed imperdiet lacinia eleifend. In hac habitasse platea dictumst." followed by social media icons for Facebook, Twitter, Google+, LinkedIn, and YouTube.

The footer is divided into four columns:

- COMPANY NAME**: Includes the text: "Nullam finibus sagittis ornare. Mauris arcu risus, malesuada a volutpat quis, elementum non felis. Quisque fermentum tincidunt ex, vel elementum dui faucibus id."
- PRODUCTS**: Lists Angular, React, Vue, and Laravel.
- USEFUL LINKS**: Lists Pricing, Settings, Orders, and Help.
- CONTACT**: Lists an address (Donec tristique pulvinar sapien), email (info@example.com), phone numbers (+782 436 228 and +378 483 744), and a copyright notice: "© 2025 Copyright: <https://github.com/AxelCCo>".

## THE BACKEND

The screenshot shows the Visual Studio Code interface with a dark theme. The Explorer sidebar on the left displays the Java project structure under 'JAVA PROJECTS'. The 'src/main/java' folder contains packages like 'com.back.react.app', 'com.back.react.app.auth', 'com.back.react.app.auth.filters', 'com.back.react.app.model.dao', 'com.back.react.app.model.dto', 'com.back.react.app.model.dto.mapper', 'com.back.react.app.model.entity', 'com.back.react.app.model.request', 'com.back.react.app.model.service', 'com.back.react.app.model.service.auth', and 'com.back.react.app.rest'. The 'src/main/resources' folder contains static files, templates, application properties, imports.sql, and a test/java directory. The terminal at the bottom shows Hibernate SQL queries related to user roles.

```
5 r1_1 on r1_1.id=r1_0.role_id where r1_0.user_id=?  
2025-02-28T13:59:21.764+06:00 DEBUG 18388 --- [app] [nio-8080-exec-9] org.hibernate.SQL  
on r1_1.id=r1_0.role_id where r1_0.user_id=?  
Hibernate: select r1_0.user_id,r1_1.id,r1_1.name from user_roles r1_0 join roles r1_1  
on r1_1.id=r1_0.role_id where r1_0.user_id=?  
: select r1_0.user_id,r1_1.id,r1_1.name from user_roles r1_0 join roles r1_1 on r1_1.id=r1_0.role_id where r1_0.user_id=?
```

## THE FRONTEND

The screenshot shows the Visual Studio Code interface with a dark theme. The Explorer sidebar on the left displays the React project structure under 'APP-REACT'. The 'src' folder contains components, assets, auth, context, hooks, pages, reducers, service, and various layout files. The 'context' folder is currently selected. The terminal at the bottom shows Vite startup logs and network information.

```
VITE v6.0.11 ready in 330 ms  
→ Local: http://localhost:5173/  
→ Network: use --host to expose  
→ press h + enter to show help
```
